

Surgical Infection Control Workshop

Let us work together for a positive aseptic technique for your practice.

Practice Base Solutions are pleased to present a surgical infection control workshop, introducing Lisa Marsh who has 15 years' experience in dental as a Faciomaxillary Theatre Nurse as our main speaker. Sue Sandles, Josephine Kelly from Dentalife and Rikki Lucas from Strauman will also be attending the Workshop.

These workshops are conducted in a dental environmental

Do not miss this 4-hour training workshop opportunity for a professional yet fun learning experience to ensure aseptic technique when doing implants or surgical procedures, you will also have a mentor to guide you through the process of aseptic techniques during the training session.

In this workshop which has 8 dental chairs, each participant will be given a surgical PPE kit (which the participant keeps) and are paired up to play both roles of a scout and scrub nurse.

Informative presentation folders will also be given.

This course has **limited numbers** due to being a workshop, so register early to not miss this opportunity.
